## PerkinElmer to Showcase Solutions at ASHG Annual Meeting 2014

### Breakthrough Technologies Support Genetics and Genomics Research

**WHAT:** [PerkinElmer, Inc.](#), a global leader focused on improving the health and safety of people and the environment, today announced that it will be showcasing a wide range of products and integrated solutions for research professionals specializing in genetics and genomics at the American Society of Human Genetics 2014 Annual Meeting.

**WHEN:** October 18-22, 2014

**WHERE:** San Diego Convention Center, San Diego, California (Booths 813 and 2022)

"PerkinElmer is excited to display our novel solutions that can help scientists advance human genetics and genomics research at ASHG," said Brian Kim, President, Life Sciences & Technology, PerkinElmer. "We offer a full suite of capabilities, including library prep for benchtop sequencers, DNA and RNA isolation and sample analysis, and magnetic particle separation."

**AT ASHG:** Products on display at ASHG 2014 include:

[NGS Express™ Workstation](#) performs library prep for benchtop sequencers. The NGS Express workstation enables preparation of up to 24 libraries and supports next generation sequencers.

[LabChip® GX Touch™ for Genomics platform](#): uses microfluidics capillary electrophoresis technology to offer advanced electrophoresis separation for high sensitivity DNA/RNA analysis, DNA smear analysis, and RNA and gDNA integrity analysis on one platform.

[chemagic Prepito®-D instrument](#): uses magnetic particle separation for top quality sample preparation system to deliver high yield and purity DNA/RNA and ensure the success of downstream applications.

[chemagic™ 360 benchtop](#): offers a flexible solution for different sample processing needs and separates samples with smooth and efficient resuspension technology and no cross-contamination.

**MORE:** PerkinElmer, Inc. is a global leader focused on improving the health and safety of people and the environment. The Company reported revenue of approximately \$2.2 billion in 2013, has about 7,600 employees serving customers in more than 150 countries, and is a component of the S&P 500 Index.
