PerkinElmer to Acquire Oxford Immunotec Global PLC

- *PerkinElmer to acquire Oxford Immunotec for USD 22.00 per share in cash*
- *Transaction expected to be completed in the first half of 2021*

WALTHAM, Mass. and LONDON, January 7, 2021 – PerkinElmer, Inc. (NYSE: PKI) (“**PerkinElmer**”) and Oxford Immunotec Global PLC (NASDAQ: OXFD) (“**Oxford Immunotec**” or the “**Company**”) are pleased to announce they have reached an agreement on terms under which PerkinElmer will acquire Oxford Immunotec (the “**Acquisition**”). It is intended that the Acquisition will be implemented by means of a U.K. High Court of Justice-sanctioned scheme of arrangement under Part 26 of the U.K. Companies Act 2006 between Oxford Immunotec and its shareholders (the “**Scheme**”).

Under the terms of the Acquisition, Oxford Immunotec shareholders will be entitled to receive USD 22.00 in cash for each outstanding ordinary share (“**Oxford Immunotec Share**”). The terms of the Acquisition value the Company’s entire issued and to be issued ordinary share capital at approximately USD 591 million, and the terms of the Acquisition represent a premium of approximately 28.3% to the closing price per share of USD 17.15 on January 5, 2021 (being the last practicable date prior to the date of this announcement (the “**Announcement**”)) and 53.5% to the 90 trading day volume-weighted average price per Oxford Immunotec Share of USD 14.34 for the period from October 8, 2020 to January 5, 2021 (being the last practicable date prior to the date of this Announcement). In addition, the terms of the Acquisition represent a premium of 99.2% to the Company’s enterprise value calculated using the 90-day volume weighted average price for the period from October 8, 2020 to January 5, 2021.

Through this Acquisition, PerkinElmer will grow its portfolio of advanced infectious disease testing solutions to include tuberculosis detection to better serve customers around the world. Moreover, the deal will enable PerkinElmer to combine its channel expertise and leading workflow and testing capabilities with Oxford Immunotec’s leading proficiencies in T cell immunology with its proprietary test kits for latent tuberculosis.

In terms of financial impact, PerkinElmer expects the Acquisition to be modestly accretive to non-GAAP earnings in year-one following the close, and PerkinElmer anticipates Oxford Immunotec’s sales growth will exceed that of its Diagnostics franchise for the foreseeable future.

Headquartered in Abingdon, UK, Oxford Immunotec is recognized as a global leader of proprietary test kits for latent tuberculosis. Its Interferon Gamma Release Assay (IGRA) offering identifies individuals who are infected with tuberculosis. Oxford Immunotec had approximately 275 global employees as of September 30, 2020 and reported total revenue from continuing operations of \$73.7 million and \$39.2 million as of the fiscal year ended December 31, 2019 and the nine months ended September 30, 2020, respectively.

Commenting on the Acquisition, Prahlad Singh, PhD, President and Chief Executive Officer of PerkinElmer, said: “Tuberculosis remains one of the leading infectious causes of death, with close to one quarter of the world’s population infected. We believe Oxford Immunotec’s diagnostic testing solution plays an important role in slowing the spread and saving lives. Oxford Immunotec’s highly sensitive test and their team’s passion for solving complex health issues make it a natural fit with PerkinElmer’s mission and together, we believe will accelerate development of robust solutions to help detect infectious disease.”

PerkinElmer’s comprehensive global diagnostics portfolio includes solutions focused on: 1) Immunodiagnostics, in areas of immunology and infectious disease; 2) Reproductive Health, with a focus on newborn and prenatal testing; and 3) Applied Genomics, which includes fully automated sample to answer solutions around genomics and molecular testing.

Commenting on the Acquisition, Peter Wrighton-Smith, PhD, Chief Executive Officer of Oxford Immunotec, said: “We are delighted to be joining the PerkinElmer family. We believe this transaction is great for our shareholders, our employees and our customers. Access to PerkinElmer’s global reach and automation experience will enable us to accelerate our growth journey and make a growing impact in the field of infectious disease.”

The Board of Directors of each company has approved the transaction, which is expected to close in the first half of calendar 2021, subject to approval of Oxford Immunotec's shareholders, court approval of the Scheme and other customary closing conditions. Upon the closing of the transaction, Oxford Immunotec will become a privately held company and Oxford Immunotec's ordinary shares will no longer be listed on any public market.

9. OXFORD IMMUNOTEC SHARE PLANS

Participants in the Oxford Immunotec Share Plans will be treated in accordance with the provisions set forth in the Implementation Agreement.

10. ACQUISITION RELATED ARRANGEMENTS

10.1 Implementation Agreement

PerkinElmer, Bidco and Oxford Immunotec entered into the Implementation Agreement, which records PerkinElmer's, Bidco's and Oxford Immunotec's intention to implement the Acquisition by way of a Scheme, subject to the ability of PerkinElmer and Bidco to implement the Acquisition by way of an Offer in the circumstances described in the Implementation Agreement.

Oxford Immunotec has made representations and warranties to PerkinElmer and Bidco in the Implementation Agreement, regarding among other things: (i) corporate existence and power; (ii) subsidiaries; (iii) organisational documents; (iv) corporate authorisation; (v) binding obligations; (vi) governmental authorisation; (vii) non-contravention; (viii) capitalisation; indebtedness; (ix) SEC filings and financial statements; (x) absence of certain changes; (xi) property; (xii) compliance with laws; permits; (xiii) regulatory matters; (xiv) certain business practices; (xv) litigation; (xvi) intellectual property; (xvii) taxes; (xviii) material contracts; (xix) environmental matters; (xx) insurance; (xxi) opinion of financial advisor; (xxii) finders' fee; (xxiii) employees and benefits plans; (xxiv) privacy and data security; (xxv) the inapplicability of the code on takeovers and mergers; (xxvi) affiliate transactions; (xxvii) no rights plan; (xxviii) suppliers; and (xxix) no other representations or warranties. The Implementation Agreement contains customary representations and warranties by PerkinElmer and Bidco. The Implementation Agreement also contains customary pre-closing covenants, including obligations on Oxford Immunotec to conduct its business in the ordinary course of business and to refrain from taking specified actions without the consent of PerkinElmer.

Termination and Termination Fee

The Implementation Agreement contains customary termination rights for both PerkinElmer and the Company, including, among others, that it may be terminated, subject to the terms and conditions of the Implementation Agreement: (i) by mutual written consent of PerkinElmer and the Company; (ii) by either the Company or PerkinElmer, if a governmental injunction, order or other legal restraint prevents the consummation of the Acquisition; (iii) by either PerkinElmer or the Company, if the Scheme is not approved by the requisite majority of the Company's shareholders or the Scheme is not sanctioned by the Court at the Court Hearing; or (iv) by either the Company or PerkinElmer upon the other party's uncured material breach of any representation, warranty, covenant or obligation under the Implementation Agreement which would reasonably be expected to prevent PerkinElmer from consummating the Acquisition or which would prevent the Company from satisfying certain closing conditions, as the case may be. The Implementation Agreement may also be terminated (A) by PerkinElmer if the Company Board fails to recommend or changes its recommendation regarding the Acquisition or approves or recommends an alternative transaction or, in certain circumstances, fails to recommend against an alternative transaction, or (B) by the Company, in order to enter into a definitive agreement with respect to a superior proposal, subject to specified limitations. In addition to the foregoing termination rights, and subject to certain limitations, either of PerkinElmer and the Company may terminate the Implementation Agreement if the Acquisition is not consummated by the long stop date of June 30, 2021 (or such later date as the parties may agree). If the Implementation Agreement is terminated under certain circumstances specified in the Implementation Agreement (including under specified circumstances in connection with the Company's entry into an agreement with respect to a superior proposal), the Company will be required to pay the PerkinElmer a termination fee of \$5,900,000.

11. STRUCTURE OF THE ACQUISITION

Scheme

It is intended that the Acquisition will be effected by a Court-sanctioned scheme of arrangement between Oxford Immunotec and the Scheme Shareholders under Part 26 of the Companies Act. The purpose of the Scheme is to provide for Bidco to become the owner of the whole of the issued and to be issued ordinary share capital of Oxford Immunotec.

This is to be achieved by the transfer of all of the outstanding Scheme Shares at the Scheme Record Time to Bidco or its nominee, in consideration for which Bidco will pay the cash consideration per Scheme Share on the basis set out in the Scheme. Under the Scheme, the Acquisition is to be achieved by:

- (a) Oxford Immunotec shareholders receiving a circular including notices convening the Court Meeting and the General Meeting and setting out the details of the Scheme;
- (b) passing of the resolutions at the General Meeting and the Court Meeting; and
- (c) the sanction of the Scheme by the Court at the Court Hearing and, consequently, the transfer of the Scheme Shares held by Scheme Shareholders to Bidco (or its nominee(s)) in consideration for which the Scheme Shareholders will receive cash consideration pursuant to the Scheme.

Approval by Court Meeting and General Meeting

In order to become Effective, the Scheme requires, among other things, the:

- (a) approval of a majority in number of the Scheme Shareholders who vote, representing not less than 75% in value of the Scheme Shares held by those Scheme shareholders, present and voting, either in person or by proxy, at the Court Meeting; and
- (b) approval of not less than 75% of the votes cast, either in person or by proxy, of the resolution necessary in order to implement the Scheme and to amend the articles of association of Oxford Immunotec at the General Meeting (to be held directly after the Court Meeting).

Application to Court to sanction the Scheme

Once the approvals of the Oxford Immunotec shareholders have been obtained at the Court Meeting and the General Meeting, and the other conditions have been satisfied or (where applicable) waived, it is necessary for the Scheme to be sanctioned by the Court at the Court hearing.

Conditions to the Acquisition

In addition to the conditions to the Scheme described above, the Acquisition will be subject to the conditions and further terms set out in full in the Implementation Agreement and to be detailed in the Scheme Document and Proxy Statement.

Scheme timetable

A full anticipated timetable will be set out in the Scheme Document and Proxy Statement which Oxford Immunotec will file with the SEC, and which is intended to be posted to Oxford Immunotec shareholders along with notices of the Court Meeting and General Meeting and the Forms of Proxy within 5 Business Days following the date Oxford Immunotec has cleared comments received from the SEC, if any, on such document, unless Oxford Immunotec and PerkinElmer otherwise agree to a later date. Subject to certain restrictions relating to persons resident in restricted jurisdictions, the Scheme Document will also be made available on Oxford Immunotec's website at www.OxfordImmunotec.com.

At this stage, subject to the approval and availability of the Court (which is subject to change), and subject to the satisfaction (or, where applicable, waiver) of the conditions, PerkinElmer expects the Acquisition will become Effective by the first half of 2021.

Full details of the Scheme to be set out in the Scheme Document and Proxy Statement

Further details of the Scheme will be set out in the Scheme Document and Proxy Statement, including the action to be taken by Scheme Shareholders.

In deciding whether or not to vote or procure votes in favour of the resolutions relating to the Scheme at the Meetings in respect of their Oxford Immunotec Shares, Oxford Immunotec shareholders should rely on the information contained, and follow the procedures described, in the Scheme Document and Proxy Statement.

The Scheme will be governed by the laws of England and Wales.

Right to switch to an Offer

PerkinElmer reserves the right to elect, subject to the terms of the Implementation Agreement, to implement the Acquisition by way of an Offer. In such an event, the Offer will be implemented on the same terms or, if PerkinElmer so decides, on such other terms being no less favourable (subject to appropriate amendments), so far as applicable, as those which would apply to the Scheme. The Effective Date for an Offer will be the date when the Offer has been declared or becomes unconditional.

12. DE-LISTING AND RE-REGISTRATION

Prior to the Scheme becoming Effective, a request will be made by Oxford Immunotec to Nasdaq to suspend trading of, and de-list, the Oxford Immunotec Shares on the Nasdaq Global Market, to take effect on, or shortly after, the Effective Date.

As soon as practicable after the Effective Date and after the cancellation of the listing and admission to trading of the Oxford Immunotec Shares on the Nasdaq Global Market, it is intended that Oxford Immunotec will be re-registered as a private limited company under the relevant provisions of the Companies Act.

13. GENERAL

The Appendices form part of, and should be read in conjunction with, this Announcement.

Overseas Oxford Immunotec shareholders

The release, publication or distribution of this Announcement in jurisdictions other than the United Kingdom and the United States may be restricted by law and therefore any persons who are subject to the laws of any jurisdiction other than the United Kingdom or the United States (including Restricted Jurisdictions) should inform themselves about, and observe, any applicable legal or regulatory requirements. In particular, the ability of persons who are not resident in the United Kingdom or United States or who are subject to the laws of another jurisdiction to vote their Oxford Immunotec Shares in respect of the Scheme at the Court Meeting, or to execute and deliver Forms of Proxy appointing another to vote at the Court Meeting on their behalf, may be affected by the laws of the relevant jurisdictions in which they are located or to which they are subject. Any failure to comply with applicable legal or regulatory requirements of any jurisdiction may constitute a violation of securities laws in that jurisdiction. This Announcement has been prepared for the purpose of complying with English law and the information disclosed may not be the same as that which would have been disclosed if this Announcement had been prepared in accordance with the laws of jurisdictions outside the United Kingdom.

Copies of this Announcement and any formal documentation relating to the Acquisition are not being, and must not be, directly or indirectly, mailed or otherwise forwarded, distributed or sent in or into or from any Restricted Jurisdiction or any jurisdiction where to do so would constitute a violation of the laws of such jurisdiction and persons receiving such documents (including custodians, nominees and trustees) must not mail or otherwise forward, distribute or send them in or into or from any Restricted Jurisdiction. Doing so may render invalid any related purported vote in respect of acceptance of the Acquisition.

If the Acquisition is implemented by way of an Offer, the Offer may not (unless otherwise permitted by applicable law and regulation) be made, directly or indirectly, in or into or by use of the mails or any other means or instrumentality (including, without limitation, facsimile, e-mail or other electronic transmission, telex or telephone) of interstate or foreign commerce of, or any facility of a national, state or other securities exchange of any Restricted Jurisdiction and the Acquisition will not be capable of acceptance by any such use, means, instrumentality or facilities or from within any Restricted Jurisdiction.

Further details in relation to Oxford Immunotec shareholders in overseas jurisdictions will be contained in the Scheme Document.

Notice to U.S. investors in Oxford Immunotec

The Acquisition relates to the shares of a U.K. company and is being made by means of a scheme of arrangement provided for under Part 26 of the Companies Act and subject to the proxy solicitation rules under the U.S. Exchange Act. The Acquisition, implemented by way of a scheme of arrangement, is not subject to the tender offer rules under the U.S. Exchange Act. If, in the future, PerkinElmer exercises its right to implement the Acquisition by way of an Offer, subject to the terms of the Implementation Agreement, the Acquisition will be made in compliance with applicable U.S. and U.K. laws and regulations.

It may be difficult for U.S. Oxford Immunotec shareholders to enforce their rights and any claim arising out of the U.S. federal securities laws, because Oxford Immunotec is located in a non-U.S. country, and some of its officers and/or directors are residents of a non-U.S. country. U.S. Oxford Immunotec shareholders may not be able to sue a non-U.S. company or its officers or directors in a non-U.S. court for violations of the U.S. securities laws. Further, it may be difficult to compel a non-U.S. company and its affiliates to subject themselves to a U.S. court's judgment.

U.S. Oxford Immunotec shareholders are urged to consult with their own legal, tax and financial advisers in connection with making a decision regarding the Acquisition.
